

Smarter and Healthier Buildings for a Sustainable Tomorrow

#driving_sustainability

Johnson
Controls Arabia

About Us

Established in 1991, Johnson Controls Arabia (Previously AlSalem Johnson Controls) group of companies acquisition by Johnson Controls in 2005, Johnson Controls Arabia and Johnson Controls merged together to become one of the leading multi-industrial companies in the Kingdom of Saudi Arabia, to offer "Building Efficiency" products and services through an array of smart, integrated solutions; including cooling and heating systems, commercial and industrial refrigeration, building management systems, and security and fire safety systems.

We are strategically located across the region with a workforce exceeding 2500 employees and a Regional Headquarters in Saudi Arabia

Our Values

Integrity First

We uphold the highest standards of integrity in everything we do and possess a 100 % transparency policy that ensures you receive only the best expertise.

Customer Driven

We win when our customers win. Our long-term strategic relationships provide unique insights and the ability to deliver exceptional customer experiences and solutions.

Purpose Led

We believe in doing well by doing good and hold ourselves accountable to make the world a better place through the solutions we provide, our engagement in society, the way we do business, and our commitment to protect people and the environment.

One Team

We are one team, dedicated to working collaboratively to create the purposeful solutions that propel the world forward.

Future Focused

Our culture of innovation and continuous improvement drives us to solve today's challenges while constantly asking what's next.

We Power Your Digital Transformation

Buildings are ecosystems of spaces, events, people and assets that add value and enable your organization's mission.

Harnessing data from inside and outside of buildings, we can optimize building performance, safety and comfort, create unique smart experiences for occupants, enhance business productivity, drive energy efficiency and power your mission.

Smart

Creating buildings that think and respond

Healthy

Nurturing wellness with healthy buildings

Sustainable

Accelerating the journey to net zero

Bringing together our leading expertise with a collection of data platforms, applications, core building systems, smart edge devices, and ecosystem partners, we will partner with you to transform your buildings and actualize the outcomes your smart building can deliver:

Improved energy
efficiency

Enhanced occupant
experiences

Increased revenue
impact

More protection

Increased
productivity

Higher compliance

Better comfort

Simplified asset
management

Enterprise

High performing future-ready buildings

Our intelligent, world-class technology solutions connect your HVAC, lighting, security and protection systems – enabling them to communicate on a single platform to deliver the information you need, allowing you to make smarter, savvier decisions while enhancing your occupants' comfort, safety and productivity.

Commercial

More connected efficient environments

At Johnson Controls Arabia, we make everything from simple, configurable controls for specific kinds of equipment to highly programmable automation systems for commercial buildings. Our next-generation building automation systems make it possible to extend automated control to every building system—HVAC, lighting, security, and detection—on a single platform.

Residential

Safer, more comfortable intelligent homes

Our residential solutions are intelligent, and they are getting more intelligent as we focus on two related goals: efficiency and automation. Sensor-based controls and advanced technology can help make your home more comfortable, more secure, and more efficient—which is good for you and good for the planet.

Building Operational Technology

External Information Technology

Software and Services

Building Management

- Building automation system
- Enterprise management & space performance
- Occupant and visitor app
- AI-powered personal concierge service
- Central plant optimization
- Hyper-converged infrastructure
- Data analytics platform
- Smart connected chillers
- Building, security and energy management
- Care communications

Fire Detection

- Incident management
- Voice alarm
- Fire evacuation
- Fire/smoke detection
- Emergency lighting
- Digital addressable fire panel
- Gas detection
- Shot detection

Controls

- Actuators & valves
- Sensors & thermostats
- Commercial refrigeration controls
- Specialty & critical environment controls
- Industrial refrigeration controls

Security

- Advanced video analysis
- Integrated operations center (PSIM)
- Digital CCTV surveillance
- Cyber security
- Access controls (doors, gates, elevators)
- Perimeter protection
- Intruder detection
- People counting
- Handheld access control
- Converged security
- Queue monitoring
- False alarm reduction
- Insider threat security
- Standard operating procedure management
- Public address, evacuation systems
- Alarm monitoring

HVAC & R

- Air-cooled and water-cooled chillers
- Absorption chillers
- Rooftop units, evaporators, ventilators
- Fans/Exhaust
- Variable refrigerant flow (VRF)
- Chilled beam
- Packaged, split and mini-split ducted systems
- Hybrid cooling systems
- Fan coil (terminal unit)
- Air handling units and coils
- Grills, registers and diffusers
- Heat pumps
- Air flow measuring stations
- VAV boxes
- Industrial refrigeration header
- Hygienic air handlers
- Compressor packages
- Condensers and evaporators
- Low charge ammonia system
- Heat exchangers
- Replacement parts
- Vessels
- Variable speed drives

Services & Solutions

- 24/7 managed services/alarm monitoring
- Advanced vibration evaluation
- Building asset mapping & health monitoring
- Building services & parts
- Building wide system integration
- Energy storage
- Energy management
- Innovative financing
- Installation services
- Integration services
- Lighting & energy retrofits
- Maintenance management
- Operations and Maintenance
- Operational intelligence & loss prevention
- Performance infrastructure improvements
- Predictive maintenance
- Renewable energy systems
- Risk assessments
- Security asset monitoring and tracking
- System design and integration
- Technology infrastructure improvements
- Tenant management
- Upgrade management
- Water system and equipment upgrades

Fire Suppression

- Sprinklers and valves
- Sprinkler system design software
- Grooved piping products
- Water mist systems
- Restaurant systems
- Vehicle systems
- Gaseous suppression systems
- Foam concentrates and hardware
- Portable fire extinguishers

Services and Support

Tailored Class-Leading Proactive Aftermarket Maintenance & Support Services

Industry-leading Support and Maintenance

BMS Operations, Maintenance, and Repair Services

Manage Energy while Maintaining
Performance and Comfort

HVAC Operations, Maintenance, and Repair Services

Keep your facilities running in a 24/7
world

Security Maintenance and Support

Tailored protection to meet your
needs

Fire Maintenance and Support

Fire and Life-Safety Services

Energy and Efficiency Solutions

Lower Your Energy Costs, Boost
Your Bottom Line

Industrial efrigeration Maintenance and Support

Exceptional technology, performance
and support

The Largest Team of Aftermarket Support Professionals!

Technical Expertise

Genuine Spare Parts for all
Equipment & Technologies

Guaranteed Customer
Satisfaction

Optimized Energy Saving
and Seasonal Settings

Internal Quality Audits

Priority Service

We Manage and Protect Facilities

Building Management
Solutions

Minimize Down Time

Identify Energy Saving
Opportunities

Reduce Unplanned
Repair Costs

Increase Equipment
Lifetime & Performance

Protect the Environment

When you partner with Johnson Controls Arabia, we treat your mission as our own. We put our deep expertise, leading technology and world-class products to work for you, never resting until you achieve your goals.

Whether your mission is to heal, teach, create or connect, Johnson Controls Arabia can help you achieve it. We provide the next generation of smart building technology for these industries:

Smart Buildings

Smart Cities

Data Centers

Healthcare

Airports

**Schools &
Higher Education**

**Sports &
Entertainment**
